EGG AND POTATO SALAD.
Materials—Three eggs, 3 medium-sized potatoes, salt and pepper to taste, French dressing.

Directions—Hard-cook the eggs, remove shells and chop finely, using a silver knife to prevent the eggs being discolored. Cook the potatoes, cut into dice while hot and mix with the eggs. Then add the dressing and season with salt and pepper. Serve very cold on a bed of watercress.

Directions—Clean, singe and cut the chicken into pieces convenient for serving. Melt the butter in a small frying pan, add the onion and carrot, both cut in thin slices, also the pieces of chicken, and cook all till golden brown, placing them in the casserole as they reach this stage. Pour the stock over them, put in the bay leaf and cover closely.

When nearly done, add the potatoes sliced, the mushrooms and seasoning. Cover and finish the cooking. Send to table in the casserole.

Tea Table Talks

MOTHER—HER COMPLEXITIES.
What a complex thing is a mother's life. The "I want what I want when I want it" must be entirely put aside. Instead that all encompassing realm of motherhood submerges self, personal wishes, desires and person ambition, while at the same time it develops character and patience.

So many mothers fail where they are most eager to help. Mothers want to have their children all that they themselves are not. Perhaps they are not particularly pleased with what they have accomplished in life, so they try to graft all their failures on a perfectly new off-spring, and hope for a bloom that will be perfect.

The mother tries to make the path of life smooth for her children by warning them against pitfalls. Mothers are so up-to-date nowadays, and are so worldly wise. They read all the new books freighted with all the problems of their girls. All the foibles of society are expatiated on, until I should think that sometimes the children would feel like the small girl whose mother before going out cautioned her not to put beans up her nose. It was such a brand new idea to the child that as soon as the door was closed she tried the experiment.

Mothers are apt to forget the sad truth that their experience teaches little to the next generation, for individuals we are to the end of time, and all a mother can do is to recognize that it is the spirit within that must be strengthened, if it is to accomplish anything in life. A mother can try to guide the children's young footsteps into the right paths; the future they must explore for themselves.

She can try to inculcate principals and morals, the essential virtues in the life of the child, she can teach the difference between right and wrong, but beyond that she can do little, the individual boy and girl must take their own life in their own hands—look at it, weigh its capabilities, and get the most they can out of it.

How many mothers allow themselves to be drained by the petty things of life. They give the same orders or admonitions over and over again, until they are sick of their own voice, and how often the mother's voice falls on deaf ears, because the children hear it so constantly.

Why cannot mothers be like a man in his business? He gives an order but once, then he dismisses it from his mind. It is not carried over. Alas this is not often the case in the home, where, over and over again the children are told the same thing.

It takes a world of knowledge, tact, a little of everything to be the ideal mother, which most mothers aspire to be. The pity of it is there is no schooling for each child is a different proposition, nothing like she has ever seen or heard of before. Nevertheless, handicapped as the mother is from the start, the most of them make a success of their difficult task as is testified by the fact that there is no sweeter word in the English language than "Mother."

WATCH COMPANY PLANS FOR PROSPEROUS YEAR

Annual Salesmen's Convention Starts Today—In Preparation For Bigger Business.

Traveling salesmen for the South Bend Watch Co. have arrived from many parts of the United States to attend the company's 1916 sales convention which begins today. This convention will be the most important event of the kind ever held by the company and will comprise four days of schooling, addresses and examinations.

The conventions held by this company are said to differ from the average gathering of the sort through the elimination of many social features in favor of strict business demonstrations. The men are thoroughly drilled in the talking points for the South Bend watches which they are required to pass a rigid examination to prove their knowledge of these points.

Advertisement of the watch with the purple ribbon is being undertaken this year on a greater scale than ever before. Low Fleming, sales manager, says that every sales and advertising plan of the company is based on the belief that 1916 is to be an unusually prosperous year.

"Every indication that comes to us from our customers," says Mr. Fleming, "points to prosperity for the coming year. Jewelers report a splendid holiday trade and of course that means abnormally low stocks and good business in re-orders for us."

"This return of prosperity comes to us at the most opportune time. South Bend watches are now well established in the minds of the trade as a high grade product and the demand for them is constantly increasing. Improvements have been made both in product and organization that give our salesmen the best trade bringing ammunition they have ever had and we expect to take full advantage of these facts."

"South Bend citizens are also showing a remarkable interest in our development and future plans for they recognize that our sales efforts advertise this city in a most valuable way. Our advertisements display the name South Bend in large space before the eyes of millions of readers all over the world and our salesmen are in a sense South Bend missionaries spreading the name and fame of the city wherever they go."
